Re: Freedom of Information Act Request

Dear Sir/Madam:

On behalf of my client, Steri-Tech, Inc., I hereby request that you make available and provide me with a copy of any and all records and/or information listed below, for the following facility:

Name: Steri-Tech, Inc.
Facility ID Number: 15515811
Address/Location: Road 701 Km. 0.7
Salinas Industrial Park
Salinas, P.R. 00751
Coordinates: 17.97078 (Lat.)
-66.3001 (Long.)

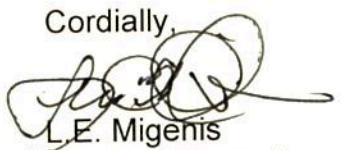

Records Being Requested:

1. Name and description of the model or models used for Steri-Tech's Air Toxics Screening Assessment (ATSA) for 2017 and all other years available.
2. Ethylene Oxide (EtO) Air Toxic Emissions (point source and fugitive) data and calculations used in the ATSA performed for the facility and neighborhood for 2017 and all other years available.
3. Meteorological data used for ATSA performed for the facility for 2017 and all other years available.
4. Summary of the data inputs to the model or models used for the ATSA performed for the facility and neighborhood for 2017 and all other years available.

5. Summary of the air toxic concentration calculations and outputs from all the models used during the ATSA for 2017 and all other years available.
6. Summary of the air toxic human exposure concentration calculations outputs from all the models used for or during the ATSA for 2017 and all other years available.
7. Summary of the human-health risk calculations and data outputs for the STI facility and neighborhood for 2017 and all other years available.
8. List of and the basis for the assumptions and methods used in the ATSA for 2017 and all other years available.
9. Agency criteria to determine whether to use or disregard the source-provided emissions in the ATSA for 2017 and all other years available.
10. Summary of the emissions factors used for the ATSA for 2017 and all other years available.
11. Sampling report or reports prepared by EPA and/or any EPA contractor laboratory or laboratories which includes all methodologies, procedures, quality assurance measures, etc., used for the Salinas PR August 2022 EtO monitoring project.
12. Any and all documentation and data that support that the Salinas PR August 2022 ambient EtO monitoring project complies with sound and generally accepted quality assurance and quality control procedures, such as record of equipment calibration, raw data sheet for the field sampling and for laboratory analyses, chain-of-custody documentation, results sample calculations, etc.).
13. Specific calculations and selection methods used to select the six (6) sampling sites monitored in the Salinas August 2022 monitoring project.
14. Documentation or information about any intent to quantify background levels and/or identify other emissions sources of EtO in the affected municipality of Salinas urban area before, during or after the monitoring project conducted on August 2022.

Steri-Tech is willing to pay fees for this request up to a maximum of \$300.00. If you estimate that the fees will exceed this limit, please notify us first. We appreciate your diligence in processing this request.

Cordially,

L.E. Migenis
